Autism - Klinghardt

Median Body Voltage in Mom's Bed During Pregnancy

	Value (mV)	Range
Neurologically Impaired Children	1,872	380-6,040
Healthy Group	224	12-480

Median Body Voltage in Child in Current Bed Location

	Value (mV)	Range
Neurologically Impaired Children	1,028	420-4,900
Healthy Group	120	0-230

Microwave Power Density in Sleeping Location

	Value (mW/m ²)	Range
Exposure in Pregnancy	290	110-1,710
Healthy Group	14	0-67

Luo, Y., Liu, L., Gong, P., & Zhong, R. (2007, May). Effect of Inhibition of Water-Soluble Propolis Extracts (WSPE) on biomolecules Damage Induced by Peroxynitrite. In *2007 IEEE/ICME International Conference on Complex Medical Engineering* (pp. 1970-1973). IEEE.

Abstract:

Peroxynitrite (ONOO^-) is a cytotoxicant with strong oxidizing and nitrating properties toward various biomolecules, including amino acids, DNA, lipids and proteins, thus can cause cell death, carcinogenesis or aging. The aim of this study was to investigate whether water-soluble propolis extracts (WSPE) could scavenge peroxynitrite and further inhibit peroxynitrite-mediated tyrosine nitration, DNA strand breaks and low density lipoprotein (LDL) oxidation. The results show that WSPE have a strong ability to scavenge ONOO^- , and its inhibition on ONOO^- exhibited a concentration-dependent manner.

It is suggested that propolis extracts might be developed as an effective peroxynitrite inhibitor for the prevention of ONOO^- involved diseases.

Propolis extract from healthy and happy bees

Propolis contains caffeic acid (CAPE), a melatonin analogue and booster

Treatment summary

A. Prevention: minimize exposure

- smart use of the stupidphone and computer: the computer switched on WiFi and the phone on your ear is a cellphone tower right in your face. The WiFi router is a cellphone tower, so is the chordless phone
- Switch off all fuses at night
- Use radio-protective clothing (KiScience) and sleep sanctuary (www.KiScience.com)
- Detoxify metals (aluminium, mercury and lead); foot/handbath with platinum electrode

B: reduce EMR absorption:

- E-Shield body lotion (propolis, rosemary, cilantro, yarrow, cocculus, arnica, selenium, hemp, neem): very effective and healthy. Has helped many many clients with EHS
- Keeping high anti-oxidant status
- Reduce microbial load
- Protective clothing

C. Internal Protection with the informed use of selected items. And forget items you hang around your neck: you cannot counteract physics with metaphysics

Rosemary, propolis, ginkgo biloba, cilantro (RayWave). Polmolo, NAC, Ascorbate powder

D. Shielding the home (Building Biology)
